

COP#26; EFET calls upon governments across the world to introduce without delay cap and trade schemes, to ration emissions of carbon dioxide and other greenhouse gases by power generators and energy intensive industries.

On 10<sup>th</sup> November 2021, in reference to the COP#26 discussions, EFET published a note entitled, "*The path to cost-efficient decarbonisation: the advantages of carbon markets*" in expressing regret at the lack of ambition on climate action in the deal. <https://t.co/2yjQF8ZrOh?amp=1>
